

IN-PERSON

AISES Adventure: Real-Life Simulation

*Empowering Native Youth
with Real-World Skills*

Overview

The AISES Adventure: Real-Life Simulation gives Native middle and high school students the chance to practice real-world decision making in a fun, supportive environment. Students step into roles and scenarios that mirror real life—budgeting, career exploration, health, education, and community choices—building skills that prepare them for the future.

This program is ideal for schools and Indian Education programs looking to offer a hands-on, culturally relevant learning experience that helps students connect academic success with life beyond the classroom.
